Getting started

If you're new to Obsidian, learn the basics of note-taking with Obsidian using the Obsidian guides:

1. [Download and install Obsidian](#)
2. [Create a vault](#)
3. [Create your first note](#)
4. [Link notes](#)
5. [Import notes](#)

From here, you can build your own custom experience by enabling additional features through *plugins*. Explore the [Core plugins](#) that ship with Obsidian, or any of our [Community plugins](#).

Customize the look and feel of Obsidian using [Themes](#) and [CSS snippets](#).
